SMART ENVIRONMENT

EG7

EG7 Zero Air Generator is a pure air generator system that is capable of continuous delivery of up to 5 standard liters per minute (SLPM).

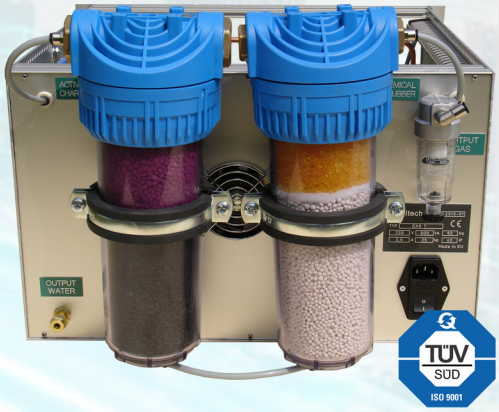
AIR QUALITY MONITORING

EG7 is a powerful stand - alone unit, so there is no need for you to worry about an external compressed air supply.

The air is a perfect method for generating zero reference calibration gas, ultra - pure combustion air for flame ionization detector, service air for pneumatically operated valves, hydrocarbon free chromatography use and general laboratory use.

Technical parameters:

Wall mounting version (OPTION)	
Input pressure max	1 MPa
Output pressure	100 kPa
Display of output pressur by pressure indicator	
Air flow max	5 l/min
Drying air by permeation	
Air purification by active carbon and molecular sieve	
Contents of O_3, SO_2, NO, NO_2	< 1 ppb
Catalytic removal of CO	
CO content	< 100 ppb
Pressure tank of comperessor	2 l



Product is manufactured in system of quality management certificated by TUV SUD Slovakia Company declares production in EU according to European regulations
